

Together we are a team!

Uczniowie klas: 2 PW, 2 PI, 2 PG oraz 2 TW wraz z opiekunem p. Moniką Orzechowską przystąpili w roku szkolnym 2020/2021 do projektu Etwinning - "Together we are a team".

Szkołami partnerskimi projektu są szkoły z Chorwacji, Portugalii, Słowacji oraz Armenii.

Celem głównym projektu jest nawiązanie współpracy między nauczycielami i uczniami oraz:

- wykorzystywanie technologii informacyjno-komunikacyjnych (ICT) i języków obcych,
- wymiana doświadczeń i materiałów pedagogicznych pomiędzy nauczycielami z Polski i Europy,
- rozwijanie umiejętności pracy w zespole oraz współpracy z innym zespołem,
- rozwijanie zainteresowań uczniów,
- wzbogacanie procesu uczenia,
- rozwijanie umiejętności językowych.

Przebieg projektu:

Październik 2020 - nawiązanie współpracy między opiekunami uczniów, rekrutacja uczniów do projektu, podpisanie zgody na udział w projekcie.

Listopad 2020 - realizacja pierwszego zadania - napisanie listu z informacjami osobistymi.

Hey guys!

I come from Zagreb, Croatia. I attend Sesvete Grammar School and it has a good reputation. I'm impressed with what our school has done and is able to do. We even have some extra classes like maths, croatian, art group, drama group etc. I personally have not seen every room in our school. We have a cafeteria and a lot of outside space. I can say that we have clean bathrooms too. We have a dressing code that says that you can't wear anything that's inappropriate. We are graded from 1 to 5 (5 being the biggest number and 1 being the lowest). We can have up to 4 test in a week and one per day. We have about 15 subjects on average, but they change over the years. We have a lot of holidays. We have them in winter and in summer, we have Easter holidays too. But we do get a few days off on some important dates. Number of subjects is changing through years but we have about 15 subjects. We can take a lot of language courses like English, Italian or German. We are allowed to use our phones during a class only when teachers give us permissions (As students we get free Wi-Fi). Our school is very modern. Some classrooms even include smart boards. I feel like we can talk with our teachers and they will always listen to us and give us their advice if we have some problems. They feel like a friend to whom you can tell anything and he will support you and your choices. I don't know much about this school but I am sure that I will enjoy it.

Do you have laboratories, a library, swimming pool, outdoor fields, gym, canteen? What is your grading system like? How many tests can you write per day? Do you have a dress code? How long do your holidays last? Do you use any technology during class? Are teachers in your school strict or friendly? Let me know if you have an answer to some questions!

Grudzień 2020 - Styczeń 2021 - realizacja drugiego zadania - opis szkoły, w której uczą się uczestnicy projektu.

Hi, Natalia!

My favorite school subjects are Math and Physics and the one I like least is probably Philosophy.

We're only learning English as a foreign language, but we could have chosen French or German instead.

On Tuesday we only have three lessons, all of them in the morning: English, Physics and Chemistry and Math.

I would like to know about your school and subjects too.

Bye!

About my school, my favourite subjects are chemistry and physics, because i like science. In My opinion the most unnecessary subject is entrepreneurship, because i have not learnng anything useful. In My school i hate the neverending queque to the school shop and the amount of people on the corridors. I like the atmosphere and that there is always soap in the bathrooms. I have tests very often, teachers verify our knowledge almost all the time. The classes are very numerous, there are about 30 people in each class, so there is little space in the corridors. Trips are not due to pandemic 🙄, and if there were, only for one day. My school is gray and very small. We have a nice pitch and shooting range. My class is very funny, we are very chatty. The setting is very cultural and tolerant. I think that to change my school for the better, it would be enough to have more shops to reduce the queues.
